DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1, 6, 16, 21, 31, and 36 are rejected under 35 U.S.C. 102(e) as being anticipated by Chang et al., U.S. Patent 6,162,684.

The rejection is maintained as stated in paper #7 mailed 11-1-01 for the reasons of record.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-5, 11-15, 17-20, 26-30, 32-35, and 41-45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chang et al., U.S. Patent 6,162,684.

The rejection is maintained as stated in paper #7 mailed 11-1-01 for the reasons of record.

Claims 7-10, 22-25, and 37-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chang as applied to claims 2-5, 11-15, 17-20, 26-30, 32-35, and 41-45 above, and further in view of Neely et al., U.S. Patent 5,443,863.

The rejection is maintained as stated in paper #7 mailed 11-1-01 for the reasons of record.

Response to Arguments

Applicant's arguments filed 1-23-02 have been fully considered but they are not persuasive. Applicant argues that Chang et al. does not show an ONO layer. Clearly, Figure 1 is an ONO layer (see column 3, lines 17-18). The formation of the floating gate and control gate clearly shows a memory array which includes an ONO layer.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 2812

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
